

ENERGY SAVINGS WORKSHOPS

Join us for an Educational Series on Energy Conservation

Save Energy! Save Dollars!

- **Energy Conservation**: explore “do it yourself” ways to reduce your energy consumption.
- Learn how to save energy and save money.
- Start saving **10%** on your monthly energy costs.
- **“Slow the Flow”** learn about how you can conserve water and protect the environment while saving money every month.
- Receive a free **“Energy Savings Toolkit”**, worth more than \$25, containing a series of easy to use energy savings tools that will reduce your energy consumption, resulting in immediate cost savings.
